- Upgrade all our permanent display cases
- Work with our schools to educate the youth of the KP about local history

Dear Members and Friends,

I hope you all have had a good summer and not been too hot. The light is changing so I know that Fall is arriving and cooler days are ahead for us.

Your Board has been busy applying for grants to help us get enough funds to finish the restoration of Vaughn Library Hall. We are **SO CLOSE!** Fortunately, we received two grants this summer: one from the Ben B. Cheney Foundation and another anonymous source. They have helped move us closer to getting the HVAC system installed. Much of the electrical work has been done to accommodate that, and some of the ducts have been put in place.

Earlier this summer we had the beams and rafters replaced that held up the roof over the stage area. That has allowed us to work on rebuilding the stage and placing the HVAC duct work underneath. Pierce County has been out and approved everything we have done so far.

As you know, raising funds to finish the work as outlined in our original restoration project has been a primary focus for several years. Our permit runs out in January 2024, so it is imperative that we get enough funding ASAP so we can complete the work in 2023. The cost of re-applying for permits plus the real possibility that the code(s) have changed since we started this project could bring completion of our Hall to a halt.

Our rallying cry this fall for our annual fundraising period will be **Over The Top!** We are hoping that you all will be able to find a little extra in your pockets to help get us there.

Our volunteers have been hard at work. Our crew of 8-12 folks have put in a collective 650 hours in 2022. That in “grant-speak” equals more than \$19,000 that we are able to charge back for matching funds. What a great job they are doing!

I hope you will have a wonderful Fall and enjoy the colorful changes that the cooler temperatures will bring. If you are out and about, drive by the Hall and take a look at the progress that has been made. You will be delighted and pleased to see what our crew of volunteers has been able to achieve.

And while you are out and about, stop by and see our wonderful display, **The Women Who Dared – Time Marches On** -- at the museum featuring the women who kept the KP running during the years between 1920 and 1960. These were very interesting and hard times out here, and our women pioneers who spanned the early years into these decades not only made a huge difference in the lives of their families and neighbors, but saw amazing changes in everyday life take place.

Stay well and be healthy. See you at the El Sombrero Fundraiser for our scholarship program on September 7!.

Our Display: The Women Who Dared — Time Marches On

Our display this year focuses on the women of the Key Peninsula during the 1920-1960 era. The early pioneer women who lived into these decades saw many changes take place. Women were given the right to vote! Prohibition was enacted. Electricity arrived in 1926 and the roads improved so travel between communities was better. The Great Depression and World War II not only created hardships and new challenges, but offered women an opportunity to serve their country.

We had our own Rosie the Riveter. 17 women volunteered and served in the Armed Forces. Did you know that the women on the KP organized and had built, in only a matter of days, the Watch Towers that enabled our residents to scan the skies for possible incoming enemy planes? Did you know that eggs produced by our own hens here on the KP were shipped through the Egg Co-op (later the Lakebay Marina) and went all the way to Europe to feed our troops during WWII? There are so many stories to be told. Come on in to the museum and take a look!

Vaughn Watch Tower

Take a Journey into Key Peninsula History!

Several of us worked last Fall on gathering information about 6 of our communities and then created auto-tour Journeys that are scavenger hunts for historical information. These Journeys give a bit of history about each of our KP communities and direct you towards some of the historical sites located there. After visiting each community, use the last page to answer questions and draw pictures.. If you do the Journey while we are closed, please contact us at kphsmuseum@gmail.com to arrange a time to meet with a docent, deliver your work and receive your prize. The museum is open from 1:00 – 4:00 p.m on Tuesdays and Saturdays. Visit the museum to show the docent your work and receive a prize. While there, take time to look at the new display and learn more about local history.

Get your guide from our website, then follow the maps to the historic sites.

Vaughn Library Hall — Summertime and the living is *BUSY!*

By Bart Wolfe and Paul Michaels

Vaughn Library Hall's restoration is in high gear! Thanks to grants currently in use + our contractor, Chuck West's team + our amazing group of volunteers we are busy, busy, busy.

Volunteers have been working double shifts to stay ahead of Chuck's crew. Thank you volunteers for everything you're doing!!

What have we accomplished this summer? **Getting closer to completion, both inside and outside!** The following grant reports will tell you more.

2021 Washington State grant, \$100,000: This grant is to complete most of the exterior work + all the new electrical work.

As of this writing, most exterior finishes are now in place and ready for painting; all that remains is refinishing the tower, including installing a new tower pole.

That will happen this autumn so we'll be completely weathertight before winter! Our volunteers primed every cedar shingle before Chuck West's crew installed them. This will save us cost as Chuck's painting contractor will have one less coat to apply.

Also in this grant is the electrical work. Our electrical contractor will return in October to complete the re-wiring of the entire building

2022 Pierce County Landmarks and Historic Preservation grant, \$31,500: This grant is to rebuild the historic stage + make repairs to the damaged rafters and beams overhead. This work is almost complete and ready for finishes! Chuck West's crew installed all structural posts and beams; our volunteers rebuilt the stage + associated ramps and stairs.

Enjoy these NOW photos!

Outside walls done except tower & painting

Stage is framed and ready for finishes!

Angel Guild grant, \$4,700: This will allow us to finish the library! Work is nearing completion; the walls are wallpapered and the ceiling is painted and it all matches what was originally there. Flooring is next, then trim and displays! When this room is complete we will be able to give members and the public a "taste" of how the whole restoration will look. The library will not only house books from the original Vaughn Bay Public Library Association collection, it will also include a display of artifacts we have found as we cleaned and organized the building.

Vaughn Library Hall — Summertime and the living is BUSY!

By Bart Wolfe and Paul Michaels

Ben B. Cheney Grant and One Anonymous grants: These will be used to install the new heating and air conditioning system. Our contractor starts in October and we'll have heat before winter! This will not only be important to keep our volunteers warm it will provide the right temperature for conditioning indoor finish materials before and during installation (VERY important for getting pieces to fit properly)!

We are getting SO close to completing our restoration. But we still have a lot to do before we can celebrate; some by contractors and some by our volunteers. This will include:

- Historically accurate interior doors, frames and hardware
- Historically accurate light fixtures
- Thermal insulation for areas above the ceilings and in the crawl space.
- Internet and Wi-Fi infrastructure
- New and restored floor, wall and ceiling finishes throughout
- New stage curtain
- New basement shelving for museum storage
- New displays and furnishings throughout so visitors will see and feel what it was like 125 years ago.

We will continue to apply for grants but we only succeed part of the time. So we need you as well. Our building permit expires in January 2024 and we don't want to apply for another one (that will cost even more \$\$\$\$)!!

Please consider making a contribution of whatever size you think is appropriate to help us complete this. To assist, we have created ways and levels of suggested giving. For instance you can buy a light fixture, the stage curtain, some library cabinets. Can't decide? Well you can also contribute by level:

1. Level 1: \$50 - \$99 = Front door level
2. Level 2: \$100 - \$499 = Dance Hall level
3. Level 3: \$500 - \$999 = Stage Level
4. Level 4: \$1,000 - \$4,999 = Library Level
5. Level 5: \$5,000 and up = Tower level

All donors' names will be listed on a commemorative plaque, unless they wish to remain anonymous, that will be on display when the hall is finished. And, because we are a non-profit, all donations are tax deductible to the full extent of the law!

We are getting so close to the finish line:

please help us get across!!! Even a small amount can add up when enough people give. KPHS is committed to restoring the Hall to its former glory.

Our sincere thanks to all those who help us do this!

Vaughn Library Hall — Anticipating Construction Phase 2

Answer the Call — Save the Hall!

The VLH is seriously dilapidated and repairs are urgently needed to its structure, as well as to make it secure and restore its weatherproofing. Future work will also restore its interior and exterior finishes.

Help us restore this important historic building!

1. The Vaughn Library Hall is the last of all the original meeting halls on the KP. Once, every community had one. Now all are gone except VLH.
2. The VLH is original and was built in 1893 as the community of Vaughn was founded.
3. The VLH has been recognized as an important building that should be saved and preserved. It is now listed on both the Pierce County Historic Building Register and the Washington State Historic Building Register.
4. It is one of the oldest buildings still standing on the KP. The floor, walls and ceilings are original (125 years old) and were made from trees growing on the site and milled at the nearby Van Slyke sawmill.
